

MEET THE STAFF!

The Basics!

My name is Mr. Lucas Hill. I am the school counselor of Monarch Global Academy. This will be my 2nd year both as a school counselor, and working at MGA. I have been married for 1 year to my beautiful wife, Hannah, who is a sonographer for Anne Arundel Diagnostic Imaging. She is Canadian, so I have grown to love our northern neighbors. We have 3 children...PETS. A terrier/Chihuahua named Penny, an orange cat named Binx, and a grey striped kitten named BB. We spend most of our time relaxing with our families. We also LOVE the movies. In school, students will come to know me for my overall goofiness and ability to be relatable because it is my #1 goal to make them comfortable.

My Childhood

I was born in Rochester, NY. My family moved to Maryland when I was 2. My mother is a speech pathologist in the county, and my father is in the fire department. I have one older brother that lives in Boston, MA. He recently had a daughter, Peyton. I also have 2 step sisters and 1 step brother, and now 3 sister-in-laws ☺

My Education!

Throughout my academic career, I have attended many types of school within the area. I earned my Associates at Anne Arundel Community College. I then transferred to UMBC, where I earned my Bachelors in Psychology. Finally I received my Master's in School Counseling at Bowie state University. It took me an additional 5 years to obtain my Masters, so I am extremely excited to finally be in the school system working with students!
