

Meet Ms. Davis!

A Lifelong Learner!

I am Ms. Mary Davis! I am very glad to return to Monarch Global Academy's third year. The first two years at MGA I taught 5th grade and for the 2016-2017 school year I am glad to join 4th grade. Prior to my start at MGA, I have had the opportunity to work in multiple settings as an educator. I started my career in Clarion, PA as a Gifted & Talented Coordinator & 6th grade teacher. After relocating to Maryland I taught kindergarten at Chesapeake Academy in Arnold and since then I worked in multiple grades that include fourth grade, second grade (as an adjunct), fifth grade & sixth grade. Then for nearly seven years, I served as a curriculum specialist in my role as Social Studies Resource Teacher for Anne Arundel County Public Schools. Four years ago I lived and taught in ShenZhen, China! What an incredible experience! Yes, I have enjoyed multiple experiences in and out of the classroom. As an educator, I have remained committed to expanding my own education through completion of several Masters programs, too. I continue to love learning in all areas of my life!

Meeting feline friend during travels in China!

My Family!

I grew up in Western Pennsylvania. My family's roots extend to Ireland, England, and Germany. I recently purchased a DNA starter kit so I may update my family lineage?! Stay tuned! I have a small but close-knit family who mostly remain in Pennsylvania but my twin sister resides in Delaware so she's not terribly far! I often share stories about my nephew, Blake, and niece, Ava.

My Education!

As stated above, I am truly a lifelong learner. I earned a Bachelors of Science in Elementary Education at Clarion University in PA. Several years later, I completed the Masters in Reading at Towson University, participated in the certificate program for Administration through Towson, and am currently enrolled at UMBC in the Masters in Historical Studies Program. As a Social Studies Resource Teacher, I often provided trainings and professional development to teachers. I have served as a We the People trainer so I've had the pleasure to work with both teachers and students in civics. I have written teaching materials for historical sites and museums. I love history. Take advantage of our excellent location here in Maryland- history is all around us!
